Committee on Claims 1839-1841

Biographical/Historical note

The Committee on Claims is one of the oldest standing committees in the House of Representatives. It was established on November 13, 1794, having been preceded by Select Committees on Claims. The committee was to consider all petitions and matters or things touching on claims and demands on the United States and report appropriations of money for payment of claims it had authorized. Originally the Committee on Claims had jurisdiction over Revolutionary War and land claims as well as pensions. In the years that followed, other committees were created to handle special types of claims such as war claims, pensions, and private land claims. Under the 1880 revised House Rules, subjects relating to "private and domestic claims and demands other than war claims against the United States" were to be referred to the Claims Committee. At the end of the 79th Congress the committee was abolished under the Legislative Reorganization Act of 1946, and jurisdiction over the subjects that had formerly been referred to it was transferred either to the Judiciary Committee or the executive departments.

Committee on the Militia 1839-1841

Biographical/Historical note

The standing Committee on the Militia was created on December 10, 1815, with jurisdiction over miscellaneous aspects of the militia organization and operation in the several states and the District of Columbia. The committee's jurisdiction included fostering greater efficiency in the militia units, encouraging rifle practice, reorganizing the militia, and issuing armaments to the militia units and later to the National Guard or voluntary militia units that replaced them. The committee was not terminated until 1911 although it had exercised little influence after the passage of the Dick Military Act of January 31, 1903. That law, combined with other concurrent military reforms, integrated the National Guard organizations in the states with the Regular Army, largely eliminating the need for direct congressional supervision of the implementation of the now obsolete 1792 militia law. After 1911, the House Military Affairs committee assumed the functions and powers that had formerly been in the jurisdiction of the Militia Committee.

Relief was sought by inventors for whom protection was not provided in the existing patent law (such as aliens and government employees) and by patentees who requested extensions on patents because they had not profited sufficiently during the period provided by the original patent. A Select Committee on the Post Office and Post Roads was established in 1806 and made a standing committee in 1808. The jurisdiction of the committee extended to all proposed legislation relating to the carrying of the mails, both foreign and domestic. It included the determination of the location, construction, and maintenance of post offices and post roads; the acquisition, lease, or transfer of realty or facilities for postal purposes; and certain aspects of the employment and management of postal employees, such as the pay and leave of letter carriers, and the settlement of claims brought by employees or contractors. Also included was the regulation of the Postal Service, including postal rates, the franking privilege, and the printing of stamped envelopes. At various times, the Railway Mail Service, ocean mail service, pneumatic tube service, postal savings banks, postal telegraphy, the Air Mail Service, and Rural Free Delivery were included in its jurisdiction. As part of its responsibility, the committee investigated the management of postal facilities, contracts for carrying the mail, and other subjects such as the forgery of postal money orders. In 1885 the jurisdiction of the committee was expanded to include appropriation authority and prepared Post Office appropriations bills from that time until 1920 when the authority was revoked under a rule change. The committee functioned until 1946 when its jurisdiction was included in that of the new Committee on Post Office and Civil Service.
