Committee on Claims 1859-1861

The Committee on Claims is one of the oldest standing committees in the House of Representatives. It was established on November 13, 1794, having been preceded by Select Committees on Claims. The committee was to consider all petitions and matters or things touching on claims and demands on the United States and report appropriations of money for payment of claims it had authorized. Originally the Committee on Claims had jurisdiction over Revolutionary War and land claims as well as pensions. In the years that followed, other committees were created to handle special types of claims such as war claims, pensions, and private land claims. Under the 1880 revised House Rules, subjects relating to "private and domestic claims and demands other than war claims against the United States" were to be referred to the Claims Committee. At the end of the 79th Congress the committee was abolished under the Legislative Reorganization Act of 1946, and jurisdiction over the subjects that had formerly been referred to it was transferred either to the Judiciary Committee or the executive departments.

Jurisdiction of the committee included patent, copyright, and trademark laws and revision of such laws; the jurisdiction of courts in patent cases; the counterfeiting of trademarks; and the Patent Office and its affairs. Private legislation, usually initiated in response to petition, was an important part of the work of the committee, especially between 1840 and 1890. Relief was sought by inventors for whom protection was not provided in the existing patent law (such as aliens and government employees) and by patentees who requested extensions on patents because they had not profited sufficiently during the period provided by the original patent. Under the Legislative Reorganization Act of 1946, the Judiciary Committee absorbed the jurisdiction of the Committee on Patents.

The jurisdiction of the committee extended to all proposed legislation relating to the carrying of the mails, both foreign and domestic. It included the determination of the location, construction, and maintenance of post offices and post roads; the acquisition, lease, or transfer of realty or facilities for postal purposes; and certain aspects of the employment and management of postal employees, such as the pay and leave of letter carriers, and the settlement of claims brought by employees or contractors. Also included was the regulation of the Postal Service, including postal rates, the franking privilege, and the printing of stamped envelopes. At various times, the Railway Mail Service, ocean mail service, pneumatic tube service, postal savings banks, postal telegraphy, the Air Mail Service, and Rural Free Delivery were included in its jurisdiction. As part of its responsibility, the committee investigated the management of postal facilities, contracts for carrying the mail, and other subjects such as the forgery of postal money orders. In 1885 the jurisdiction of the committee was expanded to include appropriation authority and prepared Post Office appropriations bills from that time until 1920 when the authority was revoked under a rule change. Biographical/Historical note

The Select Committee on the Special Message of the President of Jan. 8, 1861 was created in response to the special message from President Buchanan, commenting on the situation in South Carolina, where a special convention had voted unanimously for secession and Federal forts, arsenals, and magazines had been seized.

There are also petitions and memorials, both manuscript and printed; most seek a compromise to avert civil war, but some are in favor of war. Memorials of public meetings in Caldwell County and Asheville, NC, favored secession "if necessary," while another memorial from North Carolina stressed that secession should be avoided and suggested various proposals to avert a crisis. A petition from New Jersey mechanics called for a general election to decide whether to accept a compromise (36A-025.1).
