Its jurisdiction covered all subjects "touching the expenditure of the contingent fund of the House, [and] the auditing and settling of all accounts which may be charged therein to the House." In addition, the committee was responsible for the accountability of officers of the House, the procurement of rooms for the use of House committees and for the Speaker, and for recommending and authorizing the employment of such persons as stenographers, reporters of debates, janitors, and clerks and staff assistants for committees, members and senators. The earliest appropriations bills were written by select committees on instruction from the Committee of the Whole House, and later ones by the standing Committee on Ways and Means. Increased demands for revenue and appropriations as a result of the Civil War combined to produce a tremendous workload for the
Ways and Means Committee. Today, the committee is tasked with the appropriation of revenue for the support of the Government; rescissions of appropriations contained in appropriation Acts; transfers of unexpended balances; and bills and joint resolutions reported by other committees that provide new entitlement authority as defined in the Congressional Budget Act of 1974.

**Committee on Claims 1867-1869**

**Biographical/Historical note**
The Committee on Claims is one of the oldest standing committees in the House of Representatives. It was established on November 13, 1794, having been preceded by Select Committees on Claims. The committee was to consider all petitions and matters or things touching on claims and demands on the United States and report appropriations of money for payment of claims it had authorized. Originally the Committee on Claims had jurisdiction over Revolutionary War and land claims as well as pensions. In the years that followed, other committees were created to handle special types of claims such as war claims, pensions, and private land claims. Under the 1880 revised House Rules, subjects relating to "private and domestic claims and demands other than war claims against the United States" were to be referred to the Claims Committee. At the end of the 79th Congress the committee was abolished under the Legislative Reorganization Act of 1946, and jurisdiction over the subjects that had formerly been referred to it was transferred either to the Judiciary Committee or the executive departments.

Committee on the Militia 1867-1869

**Biographical/Historical note**

The standing Committee on the Militia was created on December 10, 1815, with jurisdiction over miscellaneous aspects of the militia organization and operation in the several states and the District of Columbia. The committee's jurisdiction included fostering greater efficiency in the militia units, encouraging rifle practice, reorganizing the militia, and issuing armaments to the militia units and
later to the National Guard or voluntary militia units that replaced them. The committee was not
terminated until 1911 although it had exercised little influence after the passage of the Dick Military
Act of January 31, 1903. That law, combined with other concurrent military reforms, integrated the
National Guard organizations in the states with the Regular Army, largely eliminating the need for
direct congressional supervision of the implementation of the now obsolete 1792 militia law. After
1911, the House Military Affairs committee assumed the functions and powers that had formerly
been in the jurisdiction of the Militia Committee.
