In addition, the committee was responsible for the accountability of officers of the House, the procurement of rooms for the use of House committees and for the Speaker, and for recommending and authorizing the employment of such persons as stenographers, reporters of debates, janitors, and clerks and staff assistants for committees, members and senators. **Biographical/Historical note**

The Committee on Appropriations was created in 1865. The earliest appropriations bills were written by select committees on instruction from the Committee of the Whole House, and later ones by the standing Committee on Ways and Means. Increased demands for revenue and
appropriations as a result of the Civil War combined to produce a tremendous workload for the Ways and Means Committee. Today, the committee is tasked with the appropriation of revenue for the support of the Government; rescissions of appropriations contained in appropriation Acts; transfers of unexpended balances; and bills and joint resolutions reported by other committees that provide new entitlement authority as defined in the Congressional Budget Act of 1974.

The committee was to consider all petitions and matters or things touching on claims and demands on the United States and report appropriations of money for payment of claims it had authorized. Originally the Committee on Claims had jurisdiction over Revolutionary War and land claims as well as pensions. In the years that followed, other committees were created to handle special types of claims such as war claims, pensions, and private land claims. Under the 1880 revised House Rules, subjects relating to “private and domestic claims and demands other than war claims against the United States” were to be referred to the Claims Committee. At the end of the 79th Congress the committee was abolished under the Legislative Reorganization Act of 1946, and jurisdiction over the subjects that had formerly been referred to it was transferred either to the Judiciary Committee or the executive departments.

Committee on the Militia 1869-1871

Biographical/Historical note

The standing Committee on the Militia was created on December 10, 1815, with jurisdiction over miscellaneous aspects of the militia organization and operation in the several states and the District of Columbia. The committee's jurisdiction included fostering greater efficiency in the militia units, encouraging rifle practice, reorganizing the militia, and issuing armaments to the militia units and later to the National Guard or voluntary militia units that replaced them. The committee was not terminated until 1911 although it had exercised little influence after the passage of the Dick Military Act of January 31, 1903. That law, combined with other concurrent military reforms, integrated the National Guard organizations in the states with the Regular Army, largely eliminating the need for direct congressional supervision of the implementation of the now obsolete 1792 militia law. After
1911, the House Military Affairs committee assumed the functions and powers that had formerly been in the jurisdiction of the Militia Committee.

### Committee on Patents 1869-1871

#### Biographical/Historical note

The standing Committee on Patents was established in 1837. Jurisdiction of the committee included patent, copyright, and trademark laws and revision of such laws; the jurisdiction of courts in patent cases; the counterfeiting of trademarks; and the Patent Office and its affairs. Private legislation, usually initiated in response to petition, was an important part of the work of the committee, especially between 1840 and 1890. Relief was sought by inventors for whom protection was not provided in the existing patent law (such as aliens and government employees) and by patentees who requested extensions on patents because they had not profited sufficiently during the period provided by the original patent. Under the Legislative Reorganization Act of 1946, the Judiciary Committee absorbed the jurisdiction of the Committee on Patents.

The jurisdiction of the committee extended to all proposed legislation relating to the carrying of the mails, both foreign and domestic. It included the determination of the location, construction, and maintenance of post offices and post roads; the acquisition, lease, or transfer of realty or facilities for postal purposes; and certain aspects of the employment and management of postal employees, such as the pay and leave of letter carriers, and the settlement of claims brought by employees or contractors. Also included was the regulation of the Postal Service, including postal rates, the franking privilege, and the printing of stamped envelopes. At various times, the Railway Mail Service, ocean mail service, pneumatic tube service, postal savings banks, postal telegraphy, the Air Mail Service, and Rural Free Delivery were included in its jurisdiction. As part of its responsibility, the committee investigated the management of postal facilities, contracts for carrying the mail, and other subjects such as the forgery of postal money orders. In 1885 the jurisdiction of the committee was expanded to include appropriation authority and prepared Post Office appropriations bills from that time until 1920 when the authority was revoked under a rule change. During the early years of the committee, much of the legislation reported had to do with constructing and improving public buildings in Washington, D.C., and commissioning artists to create art work for those buildings. Committee on Railways and Canals 1869-1871

**Biographical/Historical note**

On April 9, 1869, the name of the Committee on Roads and Canals (1831-1869) was changed to the Committee on Railways and Canals. Its jurisdiction over matters relating to roads and canals, and the improvement of navigation of rivers remained the same. Over the years the committee's jurisdiction changed significantly. Responsibility for the improvement of navigation of rivers was removed in 1880 and given to the Committee on Commerce, because most bills relating to that subject were already being sent to that committee. Also, the 1880 House rule stated that the Committee on Railways and Canals had jurisdiction over "railways and canals other than Pacific railroads"; beginning in the 1880s, however, jurisdiction on most matters relating to railroads was taken over by the Committee on Commerce, renamed in 1892 the Committee on Interstate and Foreign Commerce. In 1927 the Committee on Railways and Canals was dissolved and its jurisdiction added to that of the Committee on Interstate and Foreign Commerce.
