<td>The Committee on Appropriations was created in 1865. The Constitution of the United States specifies that &quot;All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments as on other bills.&quot; The earliest appropriations bills were written by select committees on instruction from the Committee of the Whole House, and later ones by the standing Committee on Ways and Means. Increased demands for revenue and appropriations as a result of the Civil War combined to produce a tremendous workload for the Ways and Means Committee. Today, the committee is tasked with the appropriation of revenue for the support of the Government; rescissions of appropriations contained in appropriation Acts; transfers of unexpended balances; and bills and joint resolutions reported by other committees that provide new entitlement authority as defined in the Congressional Budget Act of 1974.</td>

Originally the Committee on Claims had jurisdiction over Revolutionary War and land claims as well as pensions. In the years that followed, other committees were created to handle special types of claims such as war claims, pensions, and private land claims. Under the 1880 revised House Rules, subjects relating to "private and domestic claims and demands other than war claims against the United States" were to be referred to the Claims Committee. On April 9, 1869, the name of the Committee on Roads and Canals (1831-1869) was changed to the Committee on Railways and Canals. Its jurisdiction over matters relating to roads and canals, and the improvement of navigation of rivers remained the same. Over the years the committee's jurisdiction changed significantly. Responsibility for the improvement of navigation of rivers was removed in 1880 and given to the Committee on Commerce, because most bills relating to that subject were already being sent to that committee. Also, the 1880 House rule stated that the Committee on Railways and Canals had jurisdiction over "railways and canals other than Pacific railroads"; beginning in the 1880s, however, jurisdiction on most matters relating to railroads was taken over by the Committee on Commerce, renamed in 1892 the Committee on Interstate and Foreign Commerce. Jurisdiction was expanded to include "claims arising from any war in which the United States has been engaged."

Although most of the work of the committee involved reporting private legislation for the settlement of claims of individuals and corporations, on occasion it reported on the war claims of states and territories against the United States, as well as general legislation that provided for the adjudication of certain classes of claims. This committee, like the Claims Committee, had authority to report bills making appropriations for the payment of the obligations within its jurisdiction. Under the Legislative Reorganization Act of 1946 the committee was abolished and its jurisdiction transferred to the Judiciary Committee and the executive agencies.
