**Biographical/Historical note**

The Committee on Appropriations was created in 1865. The Constitution of the United States specifies that "All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments as on other bills." The earliest appropriations bills were written by select committees on instruction from the Committee of the Whole House, and later ones by the standing Committee on Ways and Means. Increased demands for revenue and appropriations as a result of the Civil War combined to produce a tremendous workload for the Ways and Means Committee. Today, the committee is tasked with the appropriation of revenue for the support of the Government; rescissions of appropriations contained in appropriation Acts; transfers of unexpended balances; and bills and joint resolutions reported by other committees that provide new entitlement authority as defined in the Congressional Budget Act of 1974.

The Committee on Claims is one of the oldest standing committees in the House of Representatives. It was established on November 13, 1794, having been preceded by Select Committees on Claims. The committee was to consider all petitions and matters or things touching on claims and demands on the United States and report appropriations of money for payment of claims it had authorized. Originally the Committee on Claims had jurisdiction over Revolutionary War and land claims as well as pensions. In the years that followed, other committees were created to handle special types of claims such as war claims, pensions, and private land claims. Under the 1880 revised House Rules, subjects relating to "private and domestic claims and demands other than war claims against the United States" were to be referred to the Claims Committee. At the end of the 79th Congress the committee was abolished under the Legislative Reorganization Act of 1946, and jurisdiction over the subjects that had formerly been referred to it was transferred either to the Judiciary Committee or the executive departments.

Committee on the Militia 1881-1883

Biographical/Historical note

The standing Committee on the Militia was created on December 10, 1815, with jurisdiction over miscellaneous aspects of the militia organization and operation in the several states and the District of Columbia. The committee's jurisdiction included fostering greater efficiency in the militia units, encouraging rifle practice, reorganizing the militia, and issuing armaments to the militia units and later to the National Guard or voluntary militia units that replaced them. The committee was not terminated until 1911 although it had exercised little influence after the passage of the Dick Military Act of January 31, 1903. That law, combined with other concurrent military reforms, integrated the National Guard organizations in the states with the Regular Army, largely eliminating the need for direct congressional supervision of the implementation of the now obsolete 1792 militia law. After 1911, the House Military Affairs committee assumed the functions and powers that had formerly been in the jurisdiction of the Militia Committee.

A Select Committee on the Post Office and Post Roads was established in 1806 and made a standing committee in 1808. The jurisdiction of the committee extended to all proposed legislation relating to the carrying of the mails, both foreign and domestic. It included the determination of the location, construction, and maintenance of post offices and post roads; the acquisition, lease, or transfer of realty or facilities for postal purposes; and certain aspects of the employment and management of postal employees, such as the pay and leave of letter carriers, and the settlement of claims brought by employees or contractors. Also included was the regulation of the Postal Service, including postal rates, the franking privilege, and the printing of stamped envelopes. At various times, the Railway Mail Service, ocean mail service, pneumatic tube service, postal savings banks, postal telegraphy, the Air Mail Service, and Rural Free Delivery were included in its jurisdiction. On April 9, 1869, the name of the Committee on Roads and Canals (1831-1869) was changed to the Committee on Railways and Canals. Its jurisdiction over matters relating to roads and canals, and the improvement of navigation of rivers remained the same. Over the years the committee's jurisdiction changed significantly. Responsibility for the improvement of navigation of rivers was removed in 1880 and given to the Committee on Commerce, because most bills relating to that subject were already being sent to that committee. Also, the 1880 House rule stated that the Committee on Railways and Canals had jurisdiction over "railways and canals other than Pacific railroads"; beginning in the 1880s, however, jurisdiction on most matters relating to railroads was taken over by the Committee on Commerce, renamed in 1892 the Committee on Interstate and Foreign Commerce.
