Increased demands for revenue and appropriations as a result of the Civil War combined to produce a tremendous workload for the Ways and Means Committee. Today, the committee is tasked with the appropriation of revenue for the support of the Government; rescissions of appropriations contained in appropriation Acts; transfers of unexpended balances; and bills and joint resolutions reported by other committees that provide new entitlement authority as defined in the Congressional Budget Act of 1974.

Originally the Committee on Claims had jurisdiction over Revolutionary War and land claims as well as pensions. In the years that followed, other committees were created to handle special types of claims such as war claims, pensions, and private land claims. Under the 1880 revised House Rules, subjects relating to "private and domestic claims and demands other than war claims against the United States" were to be referred to the Claims Committee. At the end of the 79th Congress the committee was abolished under the Legislative Reorganization Act of 1946, and jurisdiction over the subjects that had formerly been referred to it was transferred either to the Judiciary Committee or the executive departments.

Jurisdiction of the committee included patent, copyright, and trademark laws and revision of such laws; the jurisdiction of courts in patent cases; the counterfeiting of trademarks; and the Patent Office and its affairs. Private legislation, usually initiated in response to petition, was an important part of the work of the committee, especially between 1840 and 1890. Relief was sought by inventors for whom protection was not provided in the existing patent law (such as aliens and government employees) and by patentees who requested extensions on patents because they had not profited sufficiently during the period provided by the original patent. Under the Legislative Reorganization Act of 1946, the Judiciary Committee absorbed the jurisdiction of the Committee on Patents.

The jurisdiction of the committee extended to all proposed legislation relating to the carrying of the mails, both foreign and domestic. It included the determination of the location, construction, and maintenance of post offices and post roads; the acquisition, lease, or transfer of realty or facilities for postal purposes; and certain aspects of the employment and management of postal employees, such as the pay and leave of letter carriers, and the settlement of claims brought by employees or contractors. Also included was the regulation of the Postal Service, including postal rates, the franking privilege, and the printing of stamped envelopes. At various times, the Railway Mail Service, ocean mail service, pneumatic tube service, postal savings banks, postal telegraphy, the Air Mail Service, and Rural Free Delivery were included in its jurisdiction. As part of its responsibility, the committee investigated the management of postal facilities, contracts for carrying the mail, and other subjects such as the forgery of postal money orders. In 1885 the jurisdiction of the committee was expanded to include appropriation authority and prepared Post Office appropriations bills from that time until 1920 when the authority was revoked under a rule change. During the early years of the committee, much of the legislation reported had to do with constructing and improving public buildings in Washington, D.C., and commissioning artists to create art work for those buildings. Committee on Railways and Canals 1887-1889

Biographical/Historical note

On April 9, 1869, the name of the Committee on Roads and Canals (1831-1869) was changed to the Committee on Railways and Canals. Its jurisdiction over matters relating to roads and canals, and the improvement of navigation of rivers remained the same. Over the years the committee's jurisdiction changed significantly. Responsibility for the improvement of navigation of rivers was removed in 1880 and given to the Committee on Commerce, because most bills relating to that subject were already being sent to that committee. Also, the 1880 House rule stated that the Committee on Railways and Canals had jurisdiction over "railways and canals other than Pacific railroads"; beginning in the 1880s, however, jurisdiction on most matters relating to railroads was taken over by the Committee on Commerce, renamed in 1892 the Committee on Interstate and Foreign Commerce. In 1927 the Committee on Railways and Canals was dissolved and its jurisdiction added to that of the Committee on Interstate and Foreign Commerce.

Biographical/Historical note

The Committee on Revision of Laws was established in 1868 after having been a select committee for several years and replaced the old Committee on Revisal and Unfinished Business (1795-1868). Jurisdiction of the committee included the revision and codification of the statutes of the United States. The committee reported bills providing for the revision and codification of the general and permanent laws of the United States. Occasionally, bills concerning changes in law rather than revision and codification were referred to the committee, such as the transfer of certain bureaus from one executive department to another.

Committee on Rivers and Harbors 1887-1889

Biographical/Historical note

The Committee on Rivers and Harbors was authorized early in the 48th Congress in December 1883. The committee was given jurisdiction over subjects relating to the improvements of rivers and harbors and had the responsibility of reporting the river and harbor bill, which previously had been handled by the Committee on Commerce. The committee's jurisdiction changed over time. When the Committee on Levees and Improvements of the Mississippi River was terminated in 1911, its responsibilities were transferred to the Committee on Rivers and Harbors. The subject of flood control was removed from the committee's authority in 1916 and assigned to the new Committee on Flood Control. After 1920 the committee could no longer report appropriation bills for rivers and harbors and its legislative authority was limited to reporting only bills that authorized improvements to rivers and harbors. These shifts in authority still left many subjects within the jurisdiction of the committee. These included improvement of watersheds and dams thereon, construction of locks on navigable streams, construction and maintenance of equipment for river improvements, erosion of banks on navigable streams, pollution of navigable waters, intrastate inland waterways, and navigation of international boundary streams. The committee was terminated early in the 80th Congress on January 3, 1947. Its successor was the Committee on Public Works.

Committee on Rules 1887-1889

**Biographical/Historical note**

The Rules Committee was established as a select committee until 1880 when it was made a standing committee. Jurisdiction included the original establishment and revision of the rules of the House, an activity that required little attention after the first Congress because the rules of the previous Congress were usually adopted with few changes at the beginning of each new Congress. Further jurisdiction consisted of all proposed action on the rules and joint rules, control over the order of business on the floor of the House through the issuance of special orders or rules, and recesses and final adjournments of Congress.

Committee on War Claims 1887-1889

Biographical/Historical note

The Committee on War Claims was created in 1873 to replace the Committee on Revolutionary Claims (1825-1873). Jurisdiction of the committee was defined to include claims arising from Indian hostilities and included claims for property seized for use by the U.S. Army and Navy from citizens in the Southern States who remained loyal to the Union during the Civil War. Jurisdiction was expanded to include "claims arising from any war in which the United States has been engaged."
The records include those of the Southern Claims Commission. Although most of the work of the committee involved reporting private legislation for the settlement of claims of individuals and corporations, on occasion it reported on the war claims of states and territories against the United States as well as general legislation that provided for the adjudication of certain classes of claims. This committee, like the Claims Committee, had authority to report bills making appropriations for the payment of the obligations within its jurisdiction. Under the Legislative Reorganization Act of 1946 the committee was abolished and its jurisdiction transferred to the Judiciary Committee and the executive agencies.
